

1/9

A closed listing still takes the calls

If your map listing says permanently closed, a new page will not bring those calls back.

2/9

Do not open a second listing

A duplicate splits the history customers already know.

3/9

Open the listing that says closed

Search the business name and use the own-this or appeal path on that one.

4/9

Bring proof the shop is open

A lease or utility bill, the license, and a photo of the open door.

5/9

Ask for a reopen, not a stack

If the old login is gone, say that and ask for a transfer.

6/9

Keep the name and phone identical

Your door, your site, and the listing should show the same name, address, and phone.

7/9

Check it logged out

Customers still see the closed label until that one listing is fixed.
