

A Tuesday missed-call note with no callback time is not a booked job

A missed-call note is not a callback time.

A visitor can see you missed their call on Tuesday and still find no time you will call back

They will not guess when you call.

Put the callback window on that same note

One window. On the note they already have.

Name who makes the call

A note is not a person.

5/9

If you cannot call today, say the next time there

Do not hide a full day.

Test the note yourself in a private window

Read what they read.

Do not add a second page to hold Tuesday

Fix the note you already show.
