A Wednesday price range is not a booked day

A range is not a held day.

2/9

A visitor can read a Wednesday price range and assume that day is already held

They will not guess the booking step.

Put the booking step next to the range

One line. On the same screen.

Name who holds the day

A range is not a person.

If the range is not a booking, say so on that same screen

Do not imply the day is held.

Test the page yourself before your first Wednesday job

Read what they read.

Do not add a second page to hold the day

Fix the page you already send.
