

A Wednesday service-area list with no next opening is not a booked visit

A town list is not a next opening.

A visitor can see the towns you serve and still find no time you can come

They will not guess your next opening.

Put the next real opening on that same service-area page

One time. On the page they already have.

Name who holds that time

A town name is not a person.

5/9

If you are booked, say the next date there

Do not hide a full calendar.

Test the page yourself in a private window

Read what they read.

Do not add a second page to hold Wednesday

Fix the service-area page you already show.
